1: Apologies:	
	Elspeth alstead, Robert Sprott, Jenny Bythe, Helen Bintley, Nick Goulding, Rugina Monnigan Alice Wang
2. Minutes of previous meeting	
	Approved by all those in attendance
3.Actions of previous meeting	
	All completed

Item	Summary	Action	Responsibility
4.Chair items			
4a	<p>Preliminary Results of EPR Survey</p> <p>JT presented preliminary findings of EPR access survey which was created with PM. Showed the questions asked and the possible answers. Document highlighted some years having difficulties with accessing at certain hospitals</p> <p>JT: Free text comments will not be looked at until full analysis done</p> <p>DE: are the 16% who use another doctor's card within the same institution?</p> <p>JT: unsure as the final questions were about EPR as a whole not hospital specific</p> <p>PM: need a higher response rate as currently only 10% and would be much more powerful with more</p>	Get heads of years to send out survey again	JT

	<p>DB: potential to add this question to logbook?</p> <p>NP: can be added to logbook next year</p> <p>DB: could present initial findings to trust as a generalized picture then push for 100% response rate by using the logbooks next year</p> <p>RT: remember some trust still only use paper records</p> <p>NP: would be useful for students to present at associate deans, need notes about certain hospitals not using EPR to show the whole picture</p> <p>JT: need to push survey again to get more responses</p>		
5.Student Items			
<p>Year 3 5a</p>	<p>CSP Nobody present so will take feedback to Y3 working group</p> <p>CCS JT: positive feedback as a whole, students would like practical skills more spread out instead of many being squeezed into 1</p> <p>DE: was like that because of room capacity on COVID, should hopefully all be in person for CCS2 using Garrod and RBC</p> <p>Progress Test JT: students feel it would be beneficial to not have progress test during placement</p> <p>NP: too late to move for this year and also cannot fit into teaching weeks</p>		

<p>Year 4</p>	<p>DB: progress test moved last year and received a lot of negative feedback</p> <p>In Person Teaching AH: Feel like there should be more as COVID comes to an end, the few sessions are getting very good feedback</p> <p>JT: Nobody present to discuss so will take to Y4 working group</p> <p>Placement Preparation AH: Students still receiving reporting instructions very late JT: has been mentioned to KF before but will chase again DB: could be mentioned to education managers, ask KF if it should be discussed at associates dean</p> <p>Progress Test EK: for second time, teaching has scheduled teaching on day of progress test, what should students do</p> <p>NP: students should prioritize placement teaching and should submit self absence form and sit later on, trusts are notified dates of progress test</p> <p>JT: needs to be looked at as a repeating issue</p> <p>NP: take to MAC then Y4 working group, timetabling may be an issue due to new education leads</p> <p>Issue with consultant EK: Issue with consultants behaviour and attitude towards students</p> <p>DB: use JISC or raising concerns to make this problem known to the medical school</p>	<p>Raise at MAC</p>	<p>JT/NP#</p>
----------------------	--	---------------------	----------------------

<p>Year 5</p>	<p>Issue with Numbers AH: students unable to get sufficient teaching due to numbers or getting rejected when they arrive as there are too many</p> <p>JT: discussion are being had in Y4 working group so should be taken there</p> <p>Issue with a GP Placement</p> <p>JT: message form Y5 rep, student raised a concern and felt it was not addressed sufficiently</p> <p>DB: Dr Sood has met with student and is now resolved and now meeting with them to work out what went wrong, Dr Sood has apologised to the student</p> <p>SC: feedback received as school shut for christmas then was staffing issues upon return so took longer to attend to</p> <p>Dr Cooke apologized for the delay and emphasized this is not the normal length to sort</p>	<p>Give student feedback of experience of placement at Y4 working group</p>	<p>AH</p>
<p>6. Staff Items</p>			
<p>6a</p>			
<p>7. AOB</p>			
<p>7a</p>	<p>PSA Results PM: asking if NP knew of PSA result date</p> <p>NP: expecting results in next week or so and then will be distributed to the students</p>	<p>JT to discuss this with RT</p>	<p>JT</p>

	<p>RBC DE: water dispensers not working in RBC and students need to raise this concern through estates for it to be fixed, was wondering if SSLC/SU could liaise with estates to get it fixed</p> <p>Elections JT: BLSA/QMSU elections are happening, please encourage students to vote and attend the debate on friday</p>
