

QMUL Professional, Statutory and Regulatory Bodies (PSRB) Accreditation – 2021-22 (Undergraduate)

Professional, Statutory and Regulatory Body (PSRB) accreditation describes the accreditation, approval or recognition of specific programmes by bodies such as the Institute of Biomedical Sciences or the Royal Aeronautical Society for example.

Accreditation satisfies external Professional, Statutory and Regulatory Bodies that learning and achievement by students at the University meet national professional Benchmarks. The award of an accredited degree may allow a graduate to qualify for a particular type of employment, or may gain exemption from PSRB examinations.

The following Register details the undergraduate programmes which currently hold accreditation.

Faculty of Science and Engineering	2
School of Biological and Behavioural Sciences.....	2
School of Electrical Engineering and Computer Science.....	2
School of Engineering and Material Sciences.....	3
School of Mathematical Science.....	7
School of Physical and Chemical Sciences.....	7
Faculty of Humanities and Social Sciences	9
School of Business and Management.....	9
School of Economics and Finance.....	10
School of Law.....	10
School of Medicine and Dentistry	11
Institute of Dentistry.....	11
Institute of Health Sciences Education.....	11

Faculty of Science and Engineering

* Foundation year programmes (SEFP) are accredited once the student progresses from the foundation year onto the respective programme and completes the programme. SEFP programmes are not explicitly referenced on PSRB websites.

School of Biological and Behavioural Sciences

Degree	Programme Title	Body Name	Accreditation
BSc (FT)	Psychology Psychology with Professional Experience Psychology with Year Abroad	British Psychological Society (BPS)	Accredited against the requirements for the Graduate Basis for Chartered Membership (GBC) of the British Psychological Society (BPS). Further details on the GBC can be found here .

School of Electrical Engineering and Computer Science

Degree	Programme Title	Body Name	Accreditation
BSc (FT)	Computer Science Computer Science with Industrial Experience	Chartered Institute for IT (BCS)	Accredited by BCS, the Chartered Institute for IT (BCS) for the purposes of fully meeting the academic requirement for registration as a Chartered IT Professional (CITP). Find out more here .
		Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
MSci (FT)	Computer Science	Chartered Institute for IT (BCS)	Accredited by BCS, the Chartered Institute for IT (BCS) for the purposes of fully meeting the academic requirement for registration as a Chartered IT Professional (CITP). Find out more here .
		Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
BSc (FT)	Computer Science with Management (ITMB) Computer Science with Management (ITMB) with Industrial Experience	Chartered Institute for IT (BCS)	Accredited by BCS, the Chartered Institute for IT (BCS) for the purposes of fully meeting the academic requirement for registration as a Chartered IT Professional (CITP). Find out more here .

BEng (FT)	Computer Systems Engineering Computer Systems Engineering with Industrial Experience	Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
BEng (FT)	Electrical and Electronic Engineering Electrical and Electronic Engineering with Industrial Experience	Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
MEng (FT)	Electrical and Electronic Engineering	Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
BEng (FT)	Electronic Engineering Electronic Engineering with Industrial Experience	Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
BEng (FT)	Electronic Engineering and Telecommunications Electronic Engineering and Telecommunications with Industrial Experience	Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer.
MEng (FT)	Electronic Engineering and Telecommunications	Institution of Engineering and Technology (IET)	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. Find out more here .
School of Engineering and Material Sciences			
Degree	Programme Title	Body Name	Accreditation
BEng (FT)	Aerospace Engineering Aerospace Engineering with Industrial Experience	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for a Chartered Engineer. For more information about registration, see here .

	Aerospace Engineering with Year Abroad	(RAeS) Royal Aeronautical Society	Accredited by the Royal Aeronautical Society (RAeS) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for a Chartered Engineer. For more information about registration, see here .
MEng (FT)	Aerospace Engineering	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. For more information about registration, see here .
	Aerospace Engineering with Industrial Experience Aerospace Engineering with Year Abroad	(RAeS) Royal Aeronautical Society	Accredited by the Royal Aeronautical Society (RAeS) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. For more information about registration, see here .
BSc (FT)	Biomaterials for Biomedical Sciences	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
	Biomaterials for Biomedical Sciences with Industrial Experience		
	Biomaterials for Biomedical Sciences with Year Abroad		
MSci (FT)	Biomaterials for Biomedical Sciences	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
	Biomaterials for Biomedical Sciences with Industrial Experience		
	Biomaterials for Biomedical Sciences with a Year Abroad		
BEng (FT)	Biomedical Engineering	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for a Chartered Engineer. For more information about registration, see here .
	Biomedical Engineering with Industrial Experience		
	Biomedical Engineering with Year Abroad		

MEng (FT)	Biomedical Engineering Biomedical Engineering with Industrial Experience Biomedical Engineering with Year Abroad	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. For more information about registration, see here .
BEng (FT)	Dental Materials Dental Materials with Industrial Experience Dental Materials with Year Abroad	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
MEng (FT)	Dental Materials Dental Materials with Industrial Experience Dental Materials with Year Abroad	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
BEng (FT)	Materials and Design Materials and Design with Industrial Experience Materials and Design with Year Abroad	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
MEng (FT)	Materials and Design Materials and Design with Industrial Experience Materials and Design with Year Abroad	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
BEng (FT)	Materials Science and Engineering	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .

	Materials Science and Engineering with Industrial Experience Materials Science and Engineering with Year Abroad		
MEng (FT)	Materials Science and Engineering Materials Science and Engineering with Industrial Experience Materials Science and Engineering with Year Abroad	(IOM3) Institute of Materials, Minerals and Mining	Accredited by the Institute of Materials, Minerals and Mining (IOM3) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer (CEng) or Chartered Scientist (CSci). For more information about registration, see here .
BEng (FT)	Mechanical Engineering Mechanical Engineering with Industrial Experience Mechanical Engineering with Year Abroad	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for a Chartered Engineer. For more information about registration, see here .
MEng (FT)	Mechanical Engineering Mechanical Engineering with Industrial Experience Mechanical Engineering with Year Abroad	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. For more information about registration, see here .
BEng (FT)	Sustainable Energy Engineering Sustainable Energy Engineering with Industrial Experience Sustainable Energy Engineering with Year Abroad	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for a Chartered Engineer. For more information about registration, see here .

MEng (FT)	Sustainable Energy Engineering Sustainable Energy Engineering with Industrial Experience Sustainable Energy Engineering with Year Abroad	(IMechE) Institution of Mechanical Engineers	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer. For more information about registration, see here .
School of Mathematical Science			
Degree	Programme Title	Body Name	Accreditation
BSc (FT)	Actuarial Science Actuarial Science with Professional Placement Actuarial Science with Year Abroad	(IFoA) Institute and Faculty of Actuaries	Accredited by the Institute and Faculty of Actuaries providing exemption from the Institute and Faculty of Actuaries Core Technical Stage subjects CT1, CT2, CT3, CT4, CT5, CT6, CT7, CT8 and CAA Modules 0, 1, 2, 3, 4. For more information about IFoA professional exam exemptions, see here .
School of Physical and Chemical Sciences			
Degree	Programme Title	Body Name	Accreditation
BSc (FT)	Astrophysics Astrophysics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of partially meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
MSci (FT)	Astrophysics Astrophysics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of fully meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
BSc (FT)	Chemistry Chemistry with Year in Industry / Research	Royal Society of Chemistry (CChem)	Accredited by the Royal Society of Chemistry for partially meeting the academic criteria for Chartered Chemist (CChem). Further details on application can be found here .
MSci (FT)	Chemistry Chemistry with Foundation	Royal Society of Chemistry (CChem)	Accredited by the Royal Society of Chemistry for fully meeting the academic criteria for Chartered Chemist (CChem). Further details on application can be found here .

BSc (FT)	Pharmaceutical Chemistry Pharmaceutical Chemistry with a Year Abroad Pharmaceutical Chemistry with Year In Industry / Research	Royal Society of Chemistry (CChem)	Accredited by the Royal Society of Chemistry for partially meeting the academic criteria for Chartered Chemist (CChem). Further details on application can be found here .
MSci (FT)	Pharmaceutical Chemistry Pharmaceutical Chemistry with a Year Abroad	Royal Society of Chemistry (CChem)	Accredited by the Royal Society of Chemistry for fully meeting the academic criteria for Chartered Chemist (CChem). Further details on application can be found here .
BSc (FT)	Physics Physics with Professional Experience Physics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of partially meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
MSci (FT)	Physics Physics with Professional Experience Physics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of fully meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
BSc (FT)	Physics with Astrophysics Physics with Astrophysics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of partially meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
MSci (FT)	Physics with Astrophysics Physics with Astrophysics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of fully meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
BSc (FT)	Physics with Particle Physics Physics with Particle Physics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of partially meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .

BSc (FT)	Physics with Data Science	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of partially meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
MSci (FT)	Physics with Data Science	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of fully meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
MSci (FT)	Physics with Particle Physics Physics with Particle Physics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of fully meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
BSc (FT)	Theoretical Physics Theoretical Physics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of partially meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
MSci (FT)	Theoretical Physics Theoretical Physics with Year Abroad	(IOP) Institute of Physics	Accredited by the Institute of Physics (IOP) for the purpose of fully meeting the educational requirement for Chartered Physicist (CPhys). For more information on Institute Membership and the CPhys professional qualification, see here .
Faculty of Humanities and Social Sciences			
School of Business and Management			
Degree	Programme Title	Body Name	Accreditation
BSc (FT)	Accounting and Management	Chartered Institute of Management Accountants (CIMA)	The Programme provide exemptions towards accounting qualifications offered by CIMA
		Association of Certified Chartered Accountants (ACCA)	The Programme provide exemptions towards accounting qualifications offered by ACCA
BSc (FT)	Marketing and Management	Chartered Institute of Marketing (CIM)	Accredited by the Chartered Institute of Marketing (CIM) for the purpose of gaining CIM qualifications through the Multi-Award Pathway (MAP).

School of Economics and Finance			
Degree	Programme Title	Body Name	Accreditation
BSc (FT)	Economics, Finance and Management Economics, Finance and Management with a Year Abroad	(CFA) Chartered Financial Analyst Institute	Meets the requirements to become a formally recognised Investment Management Certificate (IMC) Advantage programme.
BSc (FT)	Economics and Finance Economics and Finance with a Year in Industry Economics and Finance with a Year Abroad	(CFA) Chartered Financial Analyst Institute	Meets the requirements to become a formally recognised Investment Management Certificate (IMC) Advantage programme.
BSc (FT)	Economics and International Finance	(CFA) Chartered Financial Analyst Institute	Meets the requirements to become a formally recognised Investment Management Certificate (IMC) Advantage programme.
School of Law			
Degree	Programme Title	Body Name	Accreditation
LLB (FT)	Law Senior Status	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
LLB (FT)	English and European Law	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
LLB (FT)	English and French Law	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.

LLB (FT)	Law in Practice	(SRA) Solicitors Regulation Authority	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here .
LLB (FT)	Global Law	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
LLB (FT)	Law	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
LLB (FT)	Law and Politics	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
LLB (FT)	Law with Business	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
LLB (FT)	Law with History	(SRA) Solicitors Regulation Authority Bar Standards Board	The qualifying law degree is recognised by the Solicitors Regulation Authority (SRA) for the purposes of satisfying the academic stage of training. For more information, see here . Accredited by the Bar Standards Board for the purpose of a Qualifying Law Degree.
