Executive Summary

Semester start and end dates are essential for planning the delivery of the curriculum and informing the Student Loans Company (SLC) of tuition fee and maintenance payment dates. The dates are also used in the creation of applicant and student records and in turn used in the submission of statutory returns such as HESA Data Futures. To create a record for a student on a programme of more than one year requires all years of the programme to have been recorded in the student record system (SRS). Currently semester dates exist in the student record system up to and including 2026-2027. To effectively set-up future applicant and student records for programmes of 5 years or more requires the approval of future semester dates.

Senate previously approved dates up to 2026-2027. Additional dates for standard programmes are required to create and maintain student records up to the academic year 2028-2029.

Academic Year Amendments

The following change has been made to pre-approved dates:

- An additional national bank holiday added to mark the coronation of King Charles. Monday 8 May 2023.

Colleagues have recommended September and January Welcome Week dates be included in the published calendars and existing calendars will be updated to provide this information.

Two further calendar years have been added: 2027-2028 and 2028-2029. Both years follow the existing pattern of 12-week semesters and standard examination periods.

Appendix A lists the changes made to 2022-2023, September and January Welcome Week dates and a summary of the Semester dates for the academic years 2027 /2028 and 2028 / 2029.
