

AV Instructions

Step 1: Tap iPad screen to turn on the system

Step 2: Select source you wish to use, PC or **HDMI** for laptop

The screenshot shows the AV control interface with the following elements:

- Menu:** Camera (highlighted with a red box), Microphones, Settings, Power.
- DISPLAY:** PC (highlighted with a red box), HDMI (Display Only) (highlighted with a red box).
- VOLUME:** A volume slider (highlighted with a red box).
- Speaker Volume Control:** A label pointing to the volume slider.
- Camera Control:** A label pointing to the Camera menu item.
- HDMI cable:** A label pointing to a photograph of an HDMI cable connector.

Select PC to use in-room PC
Log into PC using the provided keyboard and mouse
Use room Camera / Speaker / Microphone for hybrid sessions

Select HDMI to use your Laptop
Connect HDMI cable to your Laptop
With this option the room camera and microphone is disabled
